

Sheboygan County

The State Birth to 3 Program is pleased to share your county's results from the Family Survey data collected. The data is based upon the Family Surveys returned by 03/03/09. Below is your county's raw data without identifying information such as HSRS # and family comments. Family comments will be sent at a later date, as they need to be "non-identifying."

If your county sent out less than ten surveys, the data below is an average score that your county received for each question of the survey.

For all counties, this information can be used as the data for the Family Outcome questions in your Self Assessment report for 2009.

If you have any questions about this data, please contact Lori Wittemann at lori.wittemann@wisconsin.gov Family Outcomes and surveys will be one of the topics in our (optional) upcoming Data Discussion telephone conferences to offer more support if you have continued questions or ideas around family outcome data.

To understand the number answers given by each family below, please refer to a copy of the ECO Family Survey. If you did not keep a copy, see the email sent to you from Lori Wittemann which included a number of Family Surveys items to use when distributing the surveys.

In general, 5-7s are a positive response from the family. An answer of "0" means the question did not apply. Questions 16-18 related to the Family Outcome Indicators.

Total number of surveys sent out in sample: 68 You may have sent out additional surveys.

Family (raw data)	How well do you understand your child's development?	How much do you know about your child's special needs?	Are you able to tell if your child is making progress?	Do you know what programs and services are available for your child and family?	How comfortable are you in participating in meetings with professional s to plan services or activities?	How well do you know your rights and what to do if you are not satisfied?	How would you describe your ability to help your child develop and learn?	How would you describe your ability to help your child learn or practice new skills at home or in your community?	How much are you able to help your child learn or practice new skills at home or in your community?	Does your family have someone you trust to listen and talk with you?	Do you have someone you can call on when you need help with things?	How much is your family able to do the things you care for your child right now?	How would you describe the medical care you have for your child right now?	How would you describe the childcare you have for your child right now?	16 How would you describe your child's participation in religious, community or social activities right now?	17 To what extent has the B-3 program helped your family effectively communicate your child's needs?	18 To what extent has the B-3 program helped your family be able to help your child develop and learn?	How prepared are you and your child for this transition?
