

**NONMOTORIZEDTRANSPORTATION PILOT PROGRAM
PHASE 2 Data Collection, Level 1**

Project Name - Project #39 Howards Grove School District Paths

Type of Project - Infrastructure

Scope - About 1,450 feet of 8' pathway.

Location - Western side of high school campus.

Design - 8 foot wide asphalt pathway

Project Cost - Approximately \$104,369

Project Purpose - The plan provides a separate path from motor vehicle roadways and thereby reduces the potential for motor vehicle and pedestrian user conflicts.

Estimated Level of Use Including Target Audience - There are 956 students who could potentially utilize this trail system along with over 2,500 adults throughout the village who might visit the campus for athletic events, etc. Since the construction of the Howards Grove High School and Athletic Complex, the school site has become one of the most actively utilized locations in the Village of Howards Grove. The project provides safe, non-motorized access to a variety of curricular, extra curricular, and community related activities for both student and adult community members.

Period of Performance and Timeline - Spring 2009.

New or Continuation - Project is new.

Leveraging Of NTPP and Other Revenue Source - N/A.

Will this include Level 2 and Level 3 data collection - No.
