

List filters can speed your search. For best results use "(Custom...)" and "contains" (then type the word or partial word); this brings up all instances and is useful when you don't know the exact spelling or if a name is one word or two (Kettle View Road or Kettleview Road? See example below).

The image displays three sequential screenshots of an Excel spreadsheet titled "ALPHABETICAL LISTING OF STREETS AND ROADS - Sheboygan County".

Top Screenshot: Shows the full list of roads. A red circle labeled "List Filters" points to the filter dropdowns for "TOWN" and "SECTION". The "Roads" column is filtered to show roads starting with "A".
