41. Currently, Sheboygan County owns and operates two nursing home facilities, Rocky Knoll and Sunny Ridge. State and federal financial assistance associated with operating the County nursing homes has decreased, and as a result property taxes associated with their operation are on the rise.

In light of this information, please indicate your opinion on the following statements:

a. Sheboygan County should continue to provide nursing home services at Sunny Ridge even if doing so increases property taxes.

43. In the State of Wisconsin, 56 of 72 counties have enacted a county sales tax. The State Department of Revenue has estimated that a 0.5% (one-half of one percent) county sales tax would generate approximately \$6.2 million annually in Sheboygan County. Of this \$6.2 million, out-of-county visitors would pay approximately \$1.3 million.

Sheboygan County should implement a 0.5% county sales tax to provide general property tax relief.
