56. In the State of Wisconsin, 60 of 72 counties have enacted a county sales tax. The University of Wisconsin-Extension, Local Government Center, has estimated that a 0.5% (one-half of one percent) county sales tax would generate approximately \$6.2 million in 2007 in Sheboygan County. Of this \$6.2 million, out-of-county visitors would pay approximately \$1.8 million.

Sheboygan County should implement a 0.5% county sales tax to provide general property tax relief.

57. If you disagree with the previous statement, would you support enacting a 0.5% sales tax that uses the \$4.4 million generated by county residents for direct property tax relief, with the remaining \$1.8 million to be used specifically for tourism related programs and activities such as road maintenance and other infrastructure items?
