

*PRACTICE GOOD CAR CARE

REMEMBER
YOU'RE NOT JUST WASHING YOUR CAR

IT'S OUR WATER, SHEBOYGAN COUNTY.

LET'S BE CAREFUL WHAT WE PUT IN IT.

**DID YOU KNOW THERE ARE
OVER FIVE MILLION VEHICLES
IN WISCONSIN?**

Practicing good car care helps protect our lakes and streams.

HOW?

Storm drains and roadside ditches lead to our lakes and streams. So, if dirty water from washing our cars or motor fluid is washed or dumped into the storm drain, it pollutes our local waterways.

WHAT CAN YOU DO?

Simple. Keep your car tuned and fix leaks promptly, recycle used motor oil and other fluids, take your car to the car wash or wash your car on the grass.
