
The Sheboygan County Division of Public Health staff are dedicated to promoting optimal health in Sheboygan County; protecting communities, families, and individuals from communicable disease and potential environmental health hazards and preventing or controlling chronic and acute illness. Nurses, Sanitarians, Dieticians, and Support Staff collaborate with Human Services Personnel, Health Care Providers, and a host of other community partners, as well as throughout the State of Wisconsin, to conduct a unified approach in the promotion of healthy lifestyles for the residents of Sheboygan County.

It is our pleasure to serve this community.
